AZZI & OSTA, unveils its latest collection for Spring/Summer 2024 with a tribute to the free-spirited women who effortlessly command the spotlight. Named "ACT 11" this collection is a harmonious fusion of subtle and statement pieces, translated through the art of transparency, expert fabric manipulation, and the meticulous craft of striking silhouettes.

For the brand's latest SS24 collection, the creative minds behind AZZI & OSTA adopted a new approach. Recognized for pushing boundaries with their signature style & architectural cuts, this season's curation aims to strike a balance between ethereal lightness and the allure of bold cuts.

"In this collection, we ventured into a fresh direction, aiming to change the narrative. Best known for our fabric manipulation, which yields dramatic forms and innovative material techniques, this season we focused on the same level of craftsmanship and fabric manipulation to craft distinctive, clean shapes designed to steal the spotlight." Said Georges Azzi & Assaad Osta.

A celebration of women who naturally assume a powerful position in every aspect of their lives, showcasing a free-spirited, fearless, and influential demeanor. "Act 11" presents a vibrant color palette serving day looks, cocktail dresses and evening wear in bright colors: glamour yellow, sparkle purple, neon green and posh pink in addition to their trademark black and white looks.

"We enjoyed experimenting with new textures to deliver structured silhouettes with minimal intervention, once again emphasizing a sense of liberation" Added Georges Azzi & Assaad Osta.

While the codes of the brand remain, ACT 11 revisits AZZI & OSTA unique design with innovative delicate and fluid pieces that effortlessly command attention. Ranging from body hugging silhouettes, fringed details infusing a sense of dynamic motion, daring fabric introducing transparent skirts, innovative cuts and fabrics manipulations, tailored suiting with signature blazer dresses, intricate flower appliques, and crafted colorful lace.
